

## Reseller Product Catalog, 2018

Thank you for your continued partnership with Fat Tire Tours in Berlin! As we continue to work hard to deliver top-rated activities you can sell with confidence, we are excited to share with you our updated Activity Schedule for 2018. We've also made some updates to how our activities may be resold. Here's how to read this catalog:

- **Activity Listings:** Each activity listing includes the product name, duration, price, and Zau ID (for API partners). Following is a table with the activity's complete schedule.
- **Special Notes:** Please be advised that any special notes are included with each activity listing.
- **API / Non-API Schedules:** The departures for each activity that are available for you to sell are divided between those with an API connection and those without. Please use the column appropriate for your connection to see which departures are available to you. If you do not have an API connection and would like to establish one, please contact [charles@fattiretours.com](mailto:charles@fattiretours.com).
- **Activity Booking Cutoffs:** API partners are harnessed by your API settings, usually freesale up to the time of departure. Non-API partners are invited to sell all activities on a freesale basis up to 24 hours before departure unless noted in the "special notes" for any activity (see "Segway Tours"). Within 24 hours activities may be booked after checking availability with us, or by booking on our website with your discount code. Non-API partners will be notified via a "stop-sales" notification for any departures that have already reached capacity more than 24 hours before departure.
- **Product Content / Images:** Please visit our Reseller Resource Page for images and detailed tour information and descriptions. [travelpointtours.com/resources](http://travelpointtours.com/resources).
